

## **Kodak Sells 850 Image Sensor-Related Patents to OmniVision for \$65M**

April 1, 2011 2:01 PM EDT

OmniVision Technologies, Inc. (NASDAQ: [OVTI](#)) announced Friday it has doubled the size of its image sensor portfolio with the purchase of approximately 850 image sensor-related patents and patent applications from Eastman Kodak Co. (NYSE: [EK](#)) for \$65 million in a cash transaction.

"Market research projections for a number of our target markets suggest that demand for CMOS-based imaging solutions is anticipated to triple or quadruple over the next few years. This patent purchase further solidifies our commitment to technology leadership in this fast growing market," said Shaw Hong, chief executive officer of OmniVision.
